

Share a Population Projection - State and Local Population Projections Database

This is a form to aid sharing a population projection on the State and Local Population Projections Database (applieddemogtoolbox.github.io/projectionsdatabase).

Please complete one form per projections release or vintage. Partial information is okay, and we can resolve any questions in follow-up.

I (Eddie Hunsinger, edyhsgr@gmail.com) will respond that the form and materials were received, and keep you posted on the projection's listing in the database. You can email me to change or remove it at any time, and I will do so as soon as possible. -March 2021
