State and Local Population Projections Database

Share a Population Projection

This is a form to aid sharing a population projection on the State and Local Population Projections Database (applieddemogtoolbox.github.io/projectionsdatabase). Responses to-date can be viewed on the shared version of this form's associated Responses and Materials Google Sheet (tinyurl.com/PopProjDatabaseResponses).

Please complete one form per projections release or vintage. Partial information is fine, and we can resolve questions in follow-up too. You can also email me (edyhsgr@gmail.com) at any time to remove a listing you've provided, and I will do so as soon as possible.

Once a form is completed, I (Eddie Hunsinger) will respond that the form and materials were received, and will provide a ListingID for reference once it's listed in the database.

Once listed, permissioned users and can also contribute data points from it to the database's associated Google Sheet (tinyurl.com/PopProjDatabasePoints).

Please note: I will try to meet any special requests you make, but information you provide in this form may be shared publicly. Please ensure that any sharing of data files and information to the database is in accordance with data sharing requirements or restrictions specified by the data's publisher or owner.
